

"THE STANDARD OF EXCELLENCE IN THE INDUSTRY"

CASING SPACERS (Plastic) – STYLE CCSPL - Gold

The casing spacers shall be made of High Density Polyethylene (HDPE) and molded in segments for field assembly with hand tools. The casing spacer shall have integrally molded, solid-core runners extending beyond the bell. The Phoenix Gold Casing Spacers shall be placed within two feet of both ends of the casing pipe with all remaining spacers assembled along the length of the carrier pipe at an equal distance apart not exceeding six feet (6') in length. All Phoenix Gold Casing Spacers segments are supplied with molded pliable Thermoplastic Rubber (TPR) non-slip buttons having a high coefficient of friction that is designed to grip all types of pipe (especially good for PVC). Segments are interconnected using corrosion resistant bolts and nuts. The Phoenix Gold Casing Spacers will fit 4" thru 16" nominal pipe sizes. Cascade's Phoenix Gold Casing Spacers are proudly molded in the United States of America. The casing spacers shall be Series CCSPL, as manufactured by Cascade Waterworks Mfg. Co., Yorkville, Illinois, or approved equal.
